

SGA Rain Out Policy

- **Complete Washout of Tournament**

If the tournament is cancelled (**complete washout**) and there are no starts, all players will receive their cost to play in credit from the SGA for a future tournament. In the event it is the last tournament of the season, all players will receive a refund from the SGA.

This tournament will not be rescheduled.

- **Fewer than 9 holes played by all Players**

If the tournament begins and **fewer than 9 holes** are completed by all players and the tournament cannot be continued, then the players who started play will be given a rain check for the remaining holes by the golf course and also receive a \$7 credit from the SGA.

* Players who come to the golf course and do not start play will receive a credit from the SGA for a future tournament.

This tournament will not be rescheduled.

- **All players complete 9 or more holes**

If all players **complete 9 or more holes**, but all players have not completed 18 holes and the tournament cannot be continued, then the SGA Board members on-site will determine whether the tournament will be considered a 9-hole or 18-hole tournament based upon the following criteria:

1. If all players have completed at least **15 holes**, then the SGA board members will determine the final scoring of that tournament to make it a complete 18-hole tournament.
2. If fewer than **15 holes** have been completed by all players, then the tournament will be considered a **9-hole tournament**. A 9-hole rain check will be given by the golf course to all players who did not complete 18 holes.

Full payout to players will be made as if it were an 18-hole tournament.

***** For scenarios described above once play is stopped, then within one hour a decision will be made by the on-site SGA board members and announced to the players as to the status of the tournament.**
